**Dust Free
Floor Sanding
GUARANTEED!**

Cleaning Doctor's sanding system is virtually dust free. The only dust is the dust that we take away.

A well worn traditional wooden floor which was hidden under a fitted carpet for many years.

24 hours later the proud owner is ready to enjoy the richness and beauty of their real wood floor.

A terracotta floor has years of polish build up and grime removed right down to the original surface.

The tiled floor is completely cleaned and finally sealed, ready to be enjoyed again.

Traditional tiled floors such as these Victorian tiles cleaned and restored to keep them looking good.

All the dents and scratches sanded away and finally sealed with a protective coating.

A choice of colours and seals are available to achieve the finish that you require.

Whether traditional or modern, we can leave your floors clean and safe for you and your family.

100% GUARANTEE
If, for any reason, you are not completely satisfied with my work, I will return to meet your expectations at no additional charge.

Often there's no need to replace your worn, dull, dented and scratched floors. I specialise in restoring floors to a perfect finish.

On wooden floors, I remove all the dents and scratches by sanding the wood down to a new smooth surface. I then apply a protective coating, which enhances the grain and brings out the true colour and the beauty of the wood. I have numerous seals available, depending on whether you want a matt, semi-gloss or a gloss finish. I will advise and you can decide.

On tiled and synthetic floors I strip away grime and old polishes that may have built up over the years. I clean the floor right down to the original surface and then apply a new protective coating.

My cleaning and restoration services will leave your floors with a bright new look that will be beautiful and safe, and you'll save money too – guaranteed.
